Pamulang, Tangerang Selatan

Motivated and self-taught web development enthusiast with a strong foundation in HTML and CSS, currently learning JavaScript and PHP. Passionate about creating clean and user-friendly websites. Experience in developing a basic cashier web application using PHP. Eager to grow in the field of website development and contribute to real-world projects.

EDUCATION

- SMA NEGERI 3 KOTA TANGERANG SELATAN** **2021 - 2024**
 - High School in Science Major
- INSTITUT KESEHATAN DAN BISNIS ANNISA BOGOR** **2024 - Present**
 - Bachelor in Digital Business

PROJECT

Simple Cashier Website

- Developed a basic point-of-sale web application using PHP and HTML/CSS by following an online tutorial.
- Implemented essential features including product management, transaction logging, and total price calculation to streamline sales processes.
- Focused on creating a clean and intuitive layout to enhance user experience and usability.
- This project helped me strengthen my skills in web development fundamentals, form handling, and basic back-end programming.

ORGANIZATION

English Club

- Improved English communication skills through discussions, presentations, and creative activities.
- Participated in weekly discussions and informal debates to enhance speaking ability and critical thinking.

Japanese Club

- Participated in organizing cultural events such as Culture Day and school festivals.
- Developed organizational and teamwork skills through active involvement in club events.
- Engaged in group study sessions to learn about Japanese daily etiquette and customs.
